SUMMARY

Motivated and detail-oriented Computer Science and Information Technology (CSIT) graduate with a strong foundation in software development, programming, database management, data structures, algorithms, and web technologies. Passionate about building efficient and user-focused applications while continuously learning modern development practices. Experienced in academic and personal projects involving software design, problem-solving, and teamwork. Strong analytical thinking, communication, and adaptability skills, with the ability to quickly learn new technologies and contribute effectively in collaborative environments. Seeking an entry-level Software Developer/IT role where I can apply my technical knowledge, grow professionally, and deliver value through innovative solutions.

EDUCATION

(+2)	Siddhartha EBS school	2 years
3.22		
(BSc CSIT)	VEDAS COLLEGE	2023-present

PROJECTS

Black-Jack game

A simple and interactive BlackJack (21) card game built using HTML, CSS, and JavaScript. This project was created to practice JavaScript logic, DOM manipulation, and game state management.

Quiz-App

An interactive quiz application that fetches questions from the Open Trivia Database (OpenTDB) API. Users can select categories, answer multiple-choice questions, and view their score in real time. The app focuses on clean UI, smooth user experience, and modular JavaScript architecture.
